MEMORANDUM FOR: Chairman, EXSUBCOM

SUBJECT   : NTP Basic Target Listing - FY-1971

    1. As a result of a review of the procedures and requirements atten-
dant to the Basic Exploitation Support Program as prepared by the COMIREX/
EXSUBCOM for FY-1969 and FY-1970, the following recommendations are submitted:

        a. The EEI, Presentation Instructions, and Target Listings as
prepared for the FY-1970 Basic Exploitation Program be considered as
valid for FY-1971.

            (1) The present update code extends through FY-1972 and is
quite applicable.
            (2) Those targets not given an update code to be construed
as requiring only the Basic Report in the FY-1970 quarter indi-
cated.

        b. A continuing evaluation and update of the EEI, Presentation
Instructions, and Target Listings be accomplished by the EXSUBCOM.
This is to be done not at a prescribed time but at the discretion of
the user, when he feels it required, and early enough to be adopted
by the responsible organization. Such additions and/or changes should
be distributed by the EXSUBCOM as addendums to the Basic FY-1970 COMIREX
document.

    2. This procedure will allow the exploitation units in the responsible
organizations to plan and program production as far ahead as required at any
time and not be held up waiting for the particular year's requirements to be
prepared.

    3. For NPIC administrative purposes and probable use by the Community,
the NPIC Project Number will reflect the number of updates prepared on a partic-
ular target or activity by carrying the lettered suffix on into succeeding years
or until the target is removed from the listing.
